ACKNOWLEDGEMENTS

West Interactive Services Corporation d/b/a SchoolMessenger ("Provider") will provide the district named above ("Client") with the online communications applications further described in the Reference Quote subject to the following terms and conditions:
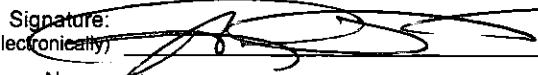

Order Authorization Terms.

The terms and conditions available at www.schoolmessenger.com/webterms will apply to this order authorization, unless the parties have entered into a separate mutually executed agreement. The terms of this order will govern any conflict with the above-mentioned terms. No additional terms in Customer's purchase order will apply.

Term and Termination.

This Agreement will commence on the Service Start Date and continue for 12 months (the "Initial Term"), and then will automatically renew for successive one year periods, unless either party provides written notice of its desire not to renew at least 30 days prior to the end of the then-current term. The obligations of Client under this Agreement are subject to the availability of Funds lawfully appropriated for its purpose by the State of California and Client.

Agreed and Acknowledged by the following who is authorized to sign on behalf of the Client:

Signature: (or initials if signing electronically) _____ Date: __5/22/19__

Name: _____ Title: _____

Fax completed form to 800-360-7732 or email to *contracts@schoolmessenger.com*.

Monsido Web Governance Suite

Service Description

Monsido is an online tool suite which scans your website once every 7 days or when you request an on-demand scan (up to the specified number of on-demand scans included in your plan). After each scan, a status report about your website's condition will be sent to you via email. Scan information can also be accessed in the Monsido dashboard. The intuitive dashboard contains numerous tools which allow you and unlimited team members to find and solve issues and make improvements related to Quality Assurance (QA), Accessibility, Search Engine Optimization (SEO) and Web Governance.

Some of Monsido's notable features include:

- Weekly scan with report sent via email
- On-demand scans when you need them
- User-friendly intuitive dashboard
- Unlimited users and ability to assign roles
- Prioritized error reporting based on page views
- Free live support and training

About Monsido

Monsido's goal is to help organizations of all types and sizes make website management and maintenance both easier and more affordable by providing them with smart and easy-to-use solutions. Monsido has a global presence with offices in Australia, Denmark, and the United States.

Service module descriptions

All modules may not be included in the selected plan.

Website Quality Assurance

The Monsido Quality Assurance module finds issues on your website which may affect user experience, such as misspellings, broken links, readability issues and other inconsistencies. It also provides you with an overview of all files on your website and allows you to track scripts to make sure they are correctly installed.

Document Scanning

The Document Scanning module checks your PDFs, Word, PowerPoint and RTF documents for broken links. With this module enabled Content Policies also check the aforementioned document types.

Search Engine Optimization (SEO)

The SEO module automatically finds technical issues on web pages which may affect search engine rankings, such as missing or duplicate title tags, heading tags, or alt text on images. It can also find content-related issues, such as content which is too short. The SEO module not only alerts you to these errors and improvement possibilities, but also has in-tool suggestions on how to fix the issues.

HTML Accessibility (WCAG 2.0/2.1 A, AA, AAA)

Make sure your website is in compliance with WCAG 2.0/2.1 A, AA, and AAA guidelines so everyone has a good experience while on your website. Monsido will scan your website and locate accessibility issues. With our in-app fix recommendations, accessibility issues are now easier to understand and fix to get your website up to standards.

PDF Accessibility Tracking

Monsido PDF Accessibility Tracking Tool lists all scanned PDF files linked from the scanned website (both internal PDFs and PDFs linked to on external websites). This enables customers to review each PDF file in order to ensure compliance for the file in question. With the Monsido PDF Accessibility Tracking Tool, customers can ensure that every listed file is thoroughly tested and remediated without subjecting to the risks arising from incomplete compliance testing done by tools that are not able to test all aspects of PDF accessibility.

PDF Accessibility Testing

The Monsido PDF Accessibility Testing Tool provided by Commonlook lists all scanned PDF files linked from the scanned website (both internal PDFs and PDFs linked to on external websites) and enables the customer to queue them for testing for WCAG 2.0 issues.

Readability Testing

Monsido will test the Readability level for scanned pages and make the results available in the reports. Adjusting readability levels for the target audience ensures that content is read and understood by the website's visitors.

Analytics

The Monsido Analytics feature provides detailed information about the number of website visitors, visitor behavior, keywords, popular web pages, and more. Monsido Analytics is very easy to use and understand through the intuitive dashboard.

Policies

The Monsido Policy feature allows you to set up policies for your site and search all crawled pages for violations and specific content, such as words, strings of words, email addresses, or employee names.

PageAssist

The Monsido PageAssist feature allows you to add a personalization button to your website which allows your website visitors to taylor the web page they're on to their individual needs.

Scans and Automated Reporting

Monsido will scan website pages which are publicly-accessible (up to the number of pages included in your plan and available using web-crawling methods) every 7 days. Your plan also includes a specific number of on-demand scans which can be performed as needed. After each scan, an automated report will be sent to you via email.

Support and Training

We offer premium support with white glove service on most of our service plans. Our goal is to respond to any support requests within 24 business hours. On most plans, we also provide free user training for your entire team. Support can be reached through our industry leading In-App chat, email, telephone or one-on-one webinar screen share.

Access to the Monsido Tool

The features and services described above can be accessed by logging in to Monsido at login.monsido.com with each user's individual login. The customer admin can control access to Monsido by creating new users, deleting users, and editing access privileges through the online interface.
