

# DRAFT

## MVWSD Board Goals 2021-2022

### 1. Learning Recovery Plan

Create and implement a learning recovery plan that ensures every child makes at least one year's growth in one year's time. Leverage resources to close the gap for students not on grade level and/or under-represented in opportunities.

### 2. Community Equity Framework

Create a draft equity framework, implement it and make modifications as needed so that by the end of the year there is a final plan including metrics and targets over the length of the strategic plan.

### 3. Align MTSS and RTI

Align the MTSS and RTI systems into a single framework to provide coordinated differentiated supports for students.

### 4. SEL

Identify and adopt a comprehensive SEL curriculum in support of the learning recovery plan and aligned with the coordinated MTSS and RTI framework.
