# Successes and Opportunities for Growth - Reading

# Successes - Reading

- **Overall:**
  - More students proficient in December 2021 compared to August 2021 and from December 2019
  - Kindergarten and 1st grade made most gains across diagnostics
  - We know, younger students benefit more from in person instructional expectations and structure of school day vs. distance learning
- **By School:**
  - All schools made growth across Diagnostic 1 and 2
  - Bubb, Imai, and Monta Loma are consistency making growth over the years and across diagnostics
  - The schools that show success over the years
    - have a continued focus on core ELA instruction
    - an intentional and consistent focus on using priority standards across grade levels and classrooms
    - using multiple formative data to drive small group instructional design during class time as well as RTI

# Successes - Reading

- **By Subgroup:**
  - Overall, all subgroups made improvement across diagnostics and across the years (except slight decrease in SED across years)
  - ELs at Stevenson, Bubb, Vargas, Imai, and Monta Loma made double digits growth across diagnostics
  - Hispanic/Latino students at Theuerkauf, Vargas, Imai, and Mistral made double digits growth across diagnostics
  - SED students at Theuerkauf and Stevenson made double digits growth across diagnostics
  - Schools that show improvement in subgroup data
    - have an intentional focus on language development and practice
    - focus on vocabulary development and review
    - consistently use targeted EL instructional strategies such as SIOP, etc.

# Opportunities for Growth - Reading

- **Overall:**
  - Even though we have made growth, 36% of students are still below grade level
  - 6th-7th-8th grade didn't make much progress across diagnostics or over the years
- **By School:**
  - Landels, Mistral, Castro, Theuerkauf have shown a decline in proficiency from pre-Covid test administration
  - Landels shows a steady decline in proficiency across the years
- **By Subgroup:**
  - Across diagnostics,
    - ELs at Crittenden, Graham declined in proficiency
    - ELs at Mistral show least growth among elementary schools
    - Hispanic/Latino students at Stevenson only made 1% growth
    - SED students at Bubbs show decrease in proficiency and at Imai they stayed flat

# Opportunities for Growth - Reading

- **By Subgroup:**
  - Overall, Hispanic/ Latino and SED students decreased in proficiency across years
  - Castro has least proficiency for Hispanic/ Latino students
- At Castro, we need an intentional effort to utilize additional supports at the school which could help mitigate the multiple challenges identified by the data.
- **Across schools,**
  - need for intentional focus on using subgroup data to guide instructional planning and student support
  - regularly frontloading vocabulary and practicing vocabulary application activities
  - focus needs to be on use of priority standards for review and structure of language usage to promote language proficiency
- **At middle schools, need for**
  - additional focus on implementing and using more small group instruction
  - using learning from differentiation PD to support students at varied levels with core classes

# Successes and Opportunities for Growth - Math

# Successes - Math

- **Overall:**
  - More students proficient in across diagnostics and no decline over the years
  - Kindergarten, 1st, and 3rd grade made most gains across diagnostics
  - 1st grade proficiency improved across the years
- **By School:**
  - All schools made growth across diagnostics
  - Bubb, Imai, Vargas, and Monta Loma showed improved proficiency across diagnostics and across the years
  - The schools that show success over the years
    - have a continued focus on priority standards instruction during core and small group instruction
    - regularly use diagnostic and formative data to guide targeted standard review during small group or during 1:1 instruction
    - provide math application opportunities and experiences to reinforce standards learning

# Successes - Math

- **By Subgroup:**
  - Across diagnostics,
    - Overall districtwide, ELs and Hispanic/Latino students improved proficiency
    - ELs at Vargas made most growth
    - Imai and Monta Loma have most proficient Hispanic/Latino students
    - SED students at Stevenson made most growth
    - SWD students at Theuerkauf made most growth
- Schools that show improvement in subgroup data
  - have a focus on math vocabulary development
  - use quick check for understandings such as exit tickets to plan for targeted instruction and to adjust lesson pacing to build in review and practice
  - focus on math priority standards

# Opportunities for Growth - Math

- **Overall:**
  - Even though we have made growth, 42% of students are still below grade level
  - Similar to Reading, 6th-7th-8th grade didn't make much progress across diagnostics or over the years
- **By School:**
  - Castro, Crittenden, and Graham made least improvement across diagnostics
  - Landels, Mistral, Vargas, Theuerkauf have declined in proficiency from pre-Covid test administration
  - Mistral and Theuerkauf have a steady decline in proficiency across the years
- **By Subgroup:**
  - Across diagnostics,
    - ELs at Graham and Mistral declined in proficiency
    - Castro has least proficient Hispanic/Latino student Hispanic/Latino students
    - SED students at Mistral, Castro, and Landels made least growth

# Opportunities for Growth - Math

- **By Subgroup:**
  - Overall, Hispanic/ Latino students decreased in proficiency across years
- Across all pathways at both middle schools, there is
  - a need for intentional focus on using data analysis protocol to design intentional core and targeted instruction during Math RTI
  - a focus on how Differentiation training is used and implemented to support varied levels of students within a pathway
- Focus needs to be on use of priority standards
- Providing students with strategies to identify information provided in word problems and selecting best computation method
- Intentional grouping of students based on formative assessment data for standard reteaching and review
- Need for targeted subgroup instruction during Math time, not just ELA

# Progress Towards Annual Typical Growth Report

# Progress Towards Annual Typical Growth- By School

School	Reading % of Students that have met their target	Math % of Students that have met their target
<b>Districtwide</b>	<b>40%</b>	<b>32%</b>
Bubb	40%	30%
Landels	32%	30%
Mistral	31%	24%
Imai	44%	30%
Vargas	35%	25%
Castro	29%	30%
Monta Loma	35%	30%
Stevenson	40%	26%
Theuerkauf	28%	25%
Crittenden	55%	44%
Graham	48%	38%

# Progress Towards Annual Typical Growth- By Grade Level

<b>Grade Level</b>	<b>Reading % of Students that have met their target</b>	<b>Math % of Students that have met their target</b>
Kindergarten	21%	22%
Grade 1	28%	29%
Grade 2	31%	26%
Grade 3	45%	25%
Grade 4	42%	29%
Grade 5	44%	35%
Grade 6	49%	30%
Grade 7	51%	44%
Grade 8	53%	48%

# Assessment Considerations

# Assessment Considerations

- With students back in-person after a year of Distance Learning +, this year is much like a reset and baseline year
- In December 2020, all students tested remotely while December 2021 was in-person test administration
- Academic performance may be impacted due to challenges presented by absences due to Covid-19, especially before on-site testing began
- Instructional time was also used to reinforce and practice Covid and Safety Protocols
- Subgroup data shows that considerable work needs to be done to support our student subgroups
  - Intentional, targeted instructional supports across grade levels
  - Small group instruction
  - RTI support
  - Differentiated core instruction

# Assessment Considerations

- Small percentage of students didn't finish the assessment, even after multiple attempts made by staff
- Some students finished their assessment after the assessment window and may not be reflected in this data report. This could create discrepancy in data shared across different time frames and impedes designing most appropriate and timely interventions and student supports
- It's possible that certain student groups were given additional allowances for testing

# Next Steps

# Next Steps

- Director of CIA is meeting with all site leaders to review data and develop instructional next steps
- Principals are using i-Ready data to review progress towards Site Plan goals and actions and making adjustments as needed in conjunction with staff and SSC
- Principals are leading grade level teams through District data protocol to revise and implement strategies for instruction based on data
  - As part of data reviews, sites will develop standards review plans for in preparation for CAASPP assessments in May
- Collaboration between Principals during Principal PLCs to share data and effective instructional practices
- Collaboration between Instructional Coaches to share best practices during Coaches PLCs.

# Next Steps

- i-Ready assessment data and data tracking sheets are used to monitor and revise student Learning Recovery efforts (revise Individual Learning Support Plans)
  - During and after school tutoring support
- For future assessments, we will run “Time on Task” reports by subgroup to ensure equitable assessment administration

# Questions?
