What do Students Say?

Students have found STG to be a powerful safe space to share what's going on with them

I feel alone. I don't know what's wrong with me. There seems to be nothing that really excites me, or motivates me, to wake up and have a smile on my face. Of course though, nobody can see that over the screen of a Zoom meeting. I just want someone to reach out to me and genuinely care. I just felt like I needed to vent. I am going to be okay, sooner or later. Thank you for making us write on here, Ms. D. This was what I needed.

I am trying my best in my classes but I am not getting the results I want and work for.
