Background

Health Connected is a nonprofit corporation whose mission is to equip young people with information, skills, and support to make thoughtful choices about their relationships and sexual health throughout their lives. Health Connected serves students, families, and educators through its sexual health education programs in California and throughout the country. Health Connected has developed and provides sexual health education programs, using their proprietary Puberty Talk/Teen Talk curriculum series.

Teen Talk is a middle- and high-school curriculum that addresses reproductive anatomy, pregnancy, contraceptive methods and abstinence, types of sexually transmitted diseases and how to prevent transmission, decision-making, identifying healthy and abusive relationships, talking to parents/trusted adults, and avoiding sexual coercion. Teen Talk educates youth about the importance of sexual health education through classroom-based lessons – both in-person classrooms and virtual classrooms. Teen Talk is designed to comply with California Education Code Sections 51930-51939 for delivery of comprehensive sexual health education and HIV/AIDS prevention education in public schools, and to meet the California Health Content Standards for Growth, Development, and Sexual Health.

Puberty Talk is a curriculum for Grades 5 and 6 that addresses changes during puberty, reproductive anatomy, pregnancy, decision-making, personal boundaries, and communication with parents/trusted adults. Puberty Talk consists of in-school lessons and is designed to comply with California Education Code Sections 51930-51939 (except section 51934, which does not apply to students under grade 7) and meet the California Health Content Standards for Growth, Development, and Sexual Health.
