4. To negotiate the final terms and conditions of the contract, which may differ from those contained in the bid, provided the SFA considers such negotiation to be in its best interest. Any change in the terms and conditions must not create a material change, which is any alteration or modification to the original terms stated in the IFB that would have resulted in different bids from all respondents.

## Certification And Disclosure Statements - Attachment "11"

Following is an explanation of the submission requirements of the **Suspension and Debarment Certification Statement** and the **Certification Regarding Lobbying** by School Food Authorities (SFA) and Food Service Management/Consulting Companies.

Beginning with the 1998/99 school year, instructions to comply with procurement requirements by completion of these certifications will be included in the annual renewal of School Nutrition Programs.

The applicability of this information begins with the 1998/99 school year and is for SFAs that meet one of the following criteria:

- The SFA's estimated annual federal child nutrition reimbursement will exceed \$100,000
- The SFA's annual contract with a vendor exceeds \$100,000.
- The SFA utilizes a Food Service Management or Consulting Company and the annual contract exceeds \$100,000.

### **Suspension and Debarment Certification**

This certification is required to be completed by the contractor each time an SFA renews or extends an existing contract that exceeds \$100,000. The certification is also required when an SFA puts out bids for goods and services that will exceed \$100,000. In these instances, the SFA must obtain a completed **Suspension and Debarment Certification** from either the potential vendor or existing contractor before any transactions can occur between the sponsor and the vendor or contractor (7 CFR 3017.110). This certification is required as part of the original bid, contract renewal, or contract extension to assure the SFA that the vendor or any of its key employees have not been proposed for debarment, debarred, or suspended by a Federal agency. While *this certification is required for all contracts in excess of \$100,000*, it is recommended that they be routinely requested under all procurements. The completed certification is to be attached to the signed contract and maintained on file by the SFA. **Do not submit the certification to the California Department of Education.**

### **Certification Regarding Lobbying**

SFAs that receive in excess of \$100,000 in annual federal meal reimbursement **must** annually complete and **submit** this certification statement to the California Department of Education (CDE), Child Nutrition and Food Distribution Division (CNFFD). The statement is part of the annual renewal of the SFA's agreement with the California Department of Education, Child Nutrition and Food Distribution Division.

**In addition**, when SFAs put out bids for goods and services or renew/extend existing contracts that exceed the \$100,000 threshold, they are required to obtain a completed **Certification Regarding Lobbying** from either the potential vendors and/or existing contractors before any transactions can occur between the SFA and the vendor contractor (7 CFR 3018.110). This certification is required as part of the original bid, contract renewal, or contract extension and is not submitted to the CDE.

Also enclosed is the **Disclosure of Lobbying Activities** form. This is required to be completed if the potential or existing contractor, using other than federal funds, has paid or will pay for lobbying activities in connection with the school nutrition program agreement (Item 2 of the **Certification Regarding Lobbying** statement).

### **Applicable to Both Certification Statements**

- Federal law prohibits SFAs from circumventing the \$100,000 threshold by entering into multiple contracts; each of which do not equal or exceed \$100,000, but the aggregate amount of all the contracts will equal or exceed \$100,000.
- Vendors must submit completed certifications to the SFA as part of the original bid, contract renewal, or contract extension. If completed certifications are not included, the original bid is considered nonresponsive, and the contract renewal or extension is incomplete. In order for the SFA to consider the original bid or renew/extend the original contract, the vendors must have submitted current certifications to the SFA.

### **SFAs with Food Service Management or Consulting Contracts**

SFAs utilizing food service management or consulting companies **must** include both certification statements in all

Requests for bids (IFB). SFAs must retain the certifications with its documentation of new contracts and contract amendments/renewals submitted to the CDE, CNFDD, for approval. The food service management or consulting company must annually sign and submit to the SFA both the ***Suspension and Debarment Certification*** and the ***Certification Regarding Lobbying***. If receiving more than \$100,000 in federal reimbursement, the SFA is required to sign and submit the ***Certification Regarding Lobbying*** to the CDE, CNFDD.

#### **Summary**

- ***Suspension and Debarment Certification***

1. The SFA must include this certification in all IFBs that result in an annual contract in excess of \$100,000.
2. A contractor is required to sign this certification when a contract or renewal contract with an SFA exceeds \$100,000 annually in federal funds.
3. The SFA retains certification signed by the contractor with executed contract and maintains it on file.

## **Product Withdrawal and Recall Policy**

Producers Dairy Foods, Inc. has developed and implemented a comprehensive product withdrawal and recall program. The recall team is cross-functional and headed by senior management. The plan identifies the initial responses, legal and expert advice available and the communication plan necessary to accomplish a timely and thorough withdrawal or recall if necessary due to failure to meet customer specifications or safety requirements. SQFI, the certification body, and the appropriate regulatory authority shall be notified due to failure to meet customer specifications.

- I. **PURPOSE:** To initiate and maintain a product retrieval program to ensure all product and materials can successfully be retrieved
  
- II. **DESCRIPTION:** A quality problem may be found with a product manufactured by Producers Dairy. The problem may originate from several different sources. For example: customer complaints, stores, or manufacturing plant. The Quality Manager and the Plant Manager will work together to present the most complete and accurate information possible to the General Manager or Senior Quality Manager who will make the decision to retrieve or not retrieve the product. If it has been decided that the product shall be retrieved the following procedure will be followed:
  
- III. **IMPLEMENTATION OF PROGRAM:**

To decide if product retrieval is necessary the seriousness of the quality problem must be determined.

- Product that may spoil (bacterial problems) before code.
- Product that has composition problems (%BF content incorrect, homogenization problems, mixed with another product).
- Product that does not meet our quality standards.
- Product that may cause probable or possible harm to the consumer.

Once the quality problem has been evaluated the type of product retrieval must be determined, the corporate QA Manager will help to determine the type of product retrieval which will need to be conducted.

### **Stock Recovery**

- involves an internal withdrawal in which Producers has control over the product.

**Market Withdrawal**

– is like a stock recovery except the product has left our control.

**Product Recall**

– A product recall is issued on a food that is in violation of the FDA and/or may cause harm to the consume.

A Product RECALL involves potential legal action and initiating a recall implies admission that a product is in violation of FDA regulations. The FDA must be notified, and this notification will become a matter of public record. Product recalls are further classified as:

**Class I** – Reasonable probability that product will cause serious adverse health consequences or death. Examples: Pathogenic bacteria, allergen contamination.

**Class II** – Exposure to product may cause temporary or medically reversible adverse health consequences or where the probability of serious health consequences is remote. Example: glass in the product.

**Class III** – Exposure to the product is not likely to cause adverse health consequences. Example: non allergenic labeling error

The Producers Product Retrieval Team shall be notified, and the retrieval process initiated.
