

INTRADISTRICT OPEN ENROLLMENT

The Governing Board desires to provide enrollment options that meet the diverse needs and interests of district students and parents/guardians, while also maximizing the efficient use of district facilities and resources. The Superintendent or designee shall establish procedures for the selection and transfer of students among district schools in accordance with law, Board policy, and administrative regulation.

The parents/guardians of any student who resides within district boundaries may apply to enroll their child in any district school, regardless of the location of their residence within the district. (Education Code 35160.5)

The Board shall annually review this policy. (Education Code 35160.5, 48980)

Enrollment Priorities

No student currently residing within a school's attendance area shall be displaced by another student transferring from outside the attendance area. (Education Code 35160.5)

The Superintendent or designee shall grant priority for the enrollment of a student in a district school outside of the student's attendance area, if the student:

1. is enrolled in a district school designated by the California Department of Education (CDE) as "persistently dangerous" (20 USC 7912; 5 CCR 11992)
2. is a victim of a violent crime while on school grounds (20 USC 7912)

INTRADISTRICT OPEN ENROLLMENT

3. Is a victim of an act of bullying committed by another district student, as determined through an investigation following the parent/guardian's submission of a written complaint with the school, district, or local law enforcement agency pursuant to Education Code 234.1 (Education Code 46600). If the district school requested by the student is at maximum capacity, the Superintendent or designee shall accept an intradistrict transfer request for another district school. (Education Code 46600)

4. Is currently enrolled in a district school identified by the CDE for comprehensive support and improvement, with priority given to the lowest academically achieving students from low-income families as determined pursuant to 20 USC 6313(a)(3) (20 USC 6311)

5. Is experiencing special circumstances that might be harmful or dangerous to the student in the current attendance area, including but not limited to, threats of bodily harm or threats to the emotional stability of the student. Any such student may transfer to a district school that is at capacity and otherwise closed to transfers. To grant priority under these circumstances, the Superintendent or designee must have received either: (Education Code 35160.5)

a. A written statement from a representative of an appropriate state or local agency, including, but not necessarily limited to, a law enforcement official, social worker, or a properly licensed or registered professional such as a psychiatrist, psychologist, or marriage and family therapist, clinical social worker, or professional clinical counselor

b. A court order, including a temporary restraining order and injunction

6. Is a sibling of a student already in attendance in that school

7. Has a parent/guardian whose primary place of employment is that school

Application and Selection Process

INTRADISTRICT OPEN ENROLLMENT

In order to ensure that priorities for enrollment in district schools are implemented in accordance with law, applications for intradistrict open enrollment shall be submitted in the annually advertised open enrollment period of the school year preceding the school year for which the transfer is requested.

The Superintendent or designee shall calculate each school's capacity in a non-arbitrary manner using student enrollment and available space. (Education Code 35160.5)

Except for priorities listed above, the Superintendent or designee shall use a random, unbiased selection process to determine who shall be admitted whenever the school receives admission requests that are in excess of the school's capacity. (Education Code 35160.5)

Enrollment decisions shall not be based on a student's academic or athletic performance. However, existing entrance criteria may be used for enrolling students in specialized schools or programs provided that the criteria are uniformly applied to all applicants. In addition, academic performance may be used to determine eligibility for, or placement in, programs for gifted and talented students. (Education Code 35160.5)

Transportation

In general, the district shall not be obligated to provide transportation for students who attend school outside their attendance area. However, upon parent/guardian request, the district shall provide transportation assistance to any student who is eligible for free or reduced price meals and whose enrollment in a district school outside the student's attendance area is a result of being a victim of bullying. (Education Code 46600)
