Award of Contract – Plumbing Maintenance and Repair Services

Dalewyn Spinks: Director, MOT

Mountain View Whisman School District

Proposals were evaluated based on several key criteria, with scoring conducted in alignment with the evaluation methodology outlined in the RFP. While total extended cost played a significant role in vendor ranking, a balanced scorecard approach was used to ensure that providers also met the District's expectations in areas such as technical compliance, experience, and references.

Results:

Vendor	Total Extended Cost (50)	Specifications (15)	Qualifications (25)	References (10)	Total Score (100)
<i>Therma LLC</i>	50	10	25	10	95

Participating vendors were deemed responsive and responsible, with proposals that demonstrated the capability to deliver high-quality plumbing maintenance and repair services that align with the District's operational, safety, and infrastructure standards.

Recommended Contract Awards:

- *Therma LLC* – Based on the highest overall score and demonstrated capacity to meet the District's needs for comprehensive plumbing maintenance, repair, emergency response, and infrastructure support services, it is recommended that *Therma LLC* be awarded the contract for District-wide Plumbing Maintenance and Repair Services.

It is further recommended that the Board of Trustees approve the contract award to *Therma LLC* in accordance with the proposal evaluations and service designation described above. Thank you for your time and consideration.

RFP Introduction: This solicitation is requesting sealed proposals from California State licensed Plumbing Contractors for Plumbing Maintenance and Repair Services at various District facilities. Contractors will provide full-service plumbing maintenance and repair and administer the duties and responsibilities outlined in this Request for Proposals ("RFP"), in compliance with all applicable laws, regulations, policies, and procedures. Firms submitting proposals must be prepared to immediately enter into a contract ("Agreement") for the services and duties as set forth in this RFP.

The scope of work will include the provision of a comprehensive plumbing maintenance and management program, which includes, but is not limited to, inspection, preventive maintenance, emergency response, general repairs, leak detection, backflow certification, grease trap service, hydro flushing and excavation, drain cleaning, pipe and fixture replacement, storm and sewer line repair, camera inspections and other necessary services to ensure the proper functioning of all plumbing systems districtwide. Services may include work on domestic water systems, sanitary sewer systems, storm drainage systems, gas lines, water heaters, backflow devices, and related plumbing infrastructure.

The successful vendor must be equipped to provide 24/7 emergency response services and must have all necessary equipment, including but not limited to Hydro Excavation Trucks, to safely and efficiently address a wide range of plumbing issues. The vendor will be responsible for furnishing all labor, supervision, materials, equipment, transportation, and disposal of used materials, as well as maintaining service and shop facilities necessary to perform high-quality work.

It is the intent of the Mountain View Whisman School District (MVWSD) to identify and establish long-term partnerships with highly qualified Contractors. To achieve the best level of service, the District believes that the relationship must be built on mutual trust and respect. Teamwork, flexibility, and cooperation will be essential characteristics of the successful Contractor.

A contractor who submits a proposal in response to this solicitation will be hereinafter referred to as "Proposer."

Background information: The Mountain View Whisman School District (MVWSD) is a public school district serving the city of Mountain View, California. The district operates 11 elementary schools and 2 middle schools, providing high-quality education to over 4,500 students from diverse backgrounds.

MVWSD is committed to maintaining safe, efficient, and sustainable facilities to support student learning and staff operations. As part of our ongoing efforts to ensure reliable water delivery, sanitation, and drainage infrastructure across all campuses, we are seeking qualified plumbing contractors to assist in the maintenance, repair, and potential upgrades of our plumbing systems.

*Email questions to dspinks@mvwsd.org

Submission of Proposals: Proposers may email (dspinks@mvwsd.org) or mail sealed proposals, to the address and staff member designated, by the proposal submission deadline defined on the NOTICE OF REQUEST FOR PROPOSAL page. It is the Proposer's responsibility to assure that its proposal is received by this deadline, no exceptions. Proposers may also request confirmation of receipt by emailing Dalewyn Spinks, dspinks@mvwsd.org. Regardless of submission method, it is the responsibility of the proposer to confirm and ensure that the email or sealed proposal was received by the submission deadline.

Proposals will be accepted up to, and no proposals will be accepted after, the RFP submission deadline. Time is Pacific Standard Time as indicated on the designated clock at the District. Proposals that arrive after the submission deadline will not be considered. It is the responsibility of the Proposer to ensure that the proposal arrives at the required location by the submission deadline.

If the District determines there is a discrepancy in or omission from this solicitation prior to the RFP submission deadline, an addendum will be issued to all Proposers that have submitted proposals or Proposers that have requested a copy of the solicitation.

The District will not be responsible for the opening of, post-opening of, or failure to open a proposal not properly addressed or identified.

The District will not assume the responsibility for any delay as a result of failure of the mail or other delivery service to deliver proposals on time

Signatures: All proposals must show the firm name and must be signed by a responsible officer or employee fully authorized to bind the organization to the terms and conditions herein. Obligations assumed by such signature must be fulfilled.

Cost of Preparing Proposal: Proposers are responsible for the costs of preparing and submitting the RFP. Materials submitted as part of the proposal will become the property of the District unless otherwise noted.

Proposal Withdrawal: The proposer may withdraw Proposals prior to the time denoted for opening the submissions, but after the opening, submissions may not be withdrawn for a period of sixty (60) days. A successful proposer shall not be relieved of the submitted proposal without the consent of the District recourse to Public Contract Code Section 5100 et. seq.

Reservation of Rights: The District expressly reserves the following rights:

1. To reject all proposals for reasonable cause;
2. To reject any part of the proposal not meeting the specifications set forth in the RFP documents
3. To waive any irregularities and technicalities and may, at its sole discretion, request a clarification or other information to evaluate any or all proposals;

4. To negotiate the final terms and conditions of the contract, which may differ from those contained in the proposal, provided the District considers such negotiation to be in its best interest. Any change in the terms and conditions must not create a material change, which is any alteration or modification to the original terms stated in the RFP that would have resulted in different proposals from all respondents.
5. To re-award the solicitation to another Proposer in the event the Proposer to whom an RFP is awarded defaults in executing the formal agreement; and
6. In the best interests of the District, accept or reject any and all portions thereof, select the next most responsive proposal, or if necessary, issue a new solicitation or take other action as the District deems appropriate.

Prices: Proposers are encouraged to submit the most competitive pricing possible because the District will be soliciting multiple bids from Bidders to achieve the lowest possible price for the specifications and requirements outlined in this solicitation.

Prices should be stated and shown as instructed on the Cost Proposal Sheet for each service, based on requirements specified.

Experience and Service: Proposers are advised they must demonstrate the ability to provide the necessary services required under this agreement.

Proposers are required to submit three references listing currently serviced school districts. The list shall include district name, MOT director's name and phone number. Proposers may be required to verify that they have been in the business called for in this Request for Proposal for at least twelve (12) months. Experience and service are factors in the award of this contract.

A contractor's recent performance under any previous or existing contract may be examined. Poor performance or references of current or past customers may be used in the evaluation. Proposers, therefore, release the organizations and individuals listed from any claim or liability, because of responses given to requests for information by the District regarding the Proposer and/or the Proposer's performance of work.

Method of Award: Proposals that are submitted timely and are not subject to disqualification will be reviewed in accordance with the evaluation criteria set forth in this solicitation. In addition, the District may conduct a pre-award audit. A contract will be awarded to the responsive and responsible Proposer with the highest total score. Winning Proposer will be herein referred to as the "Selected Contractor."

- A "responsive Proposer" will be able to meet the requirements described in this solicitation.
- A "responsible Proposer" is willing and capable of furnishing the goods or services described in this solicitation.

Bids will be evaluated on the basis of price (50%), compliance to the specifications (15%), qualifications (25%), and references (10%) provided by the Bidder. Because it is known that the

lowest bidder may not be able to meet all the needs of the District on any given date/time, qualified contractors will be awarded contracts and will be given the opportunity to provide service in order of the ranking that will result from the bids submitted by responsive and responsible contractors.

Safety & Security: The Contractor and all associated personnel must adhere to all established safety protocols to ensure the well-being of students, staff, and the public. The Contractor is responsible for maintaining a secure work environment and shall take precautions to prevent any hazards or security risks. At the conclusion of work in each room, the Contractor must ensure that all doors are properly secured. All exterior doors must remain locked at all times. Contractors shall not prop open or leave exterior doors unsecured. If an interior door is found open or unlocked, it should be left in the same condition as it was found unless instructed otherwise by authorized school personnel. Contractors must follow all district safety procedures and immediately report any security concerns, hazards, or incidents to the designated district representative. Failure to comply with these security and safety requirements may result in termination of the contract and/or restricted access to district facilities.

Emergency Situation: For any emergencies occurring at district facilities, contractors must follow proper procedures. In the event of a medical emergency, fire, or other public safety incident, immediately call 9-1-1 and provide the dispatcher with the facility name and address, then notify the designated district representative as soon as it is safe to do so. For urgent facility issues such as water leaks, power outages, gas leaks, or structural damage, contact the Director, MOT or designated district staff immediately, as they are available 24 hours a day to address critical maintenance concerns. All contractors are expected to familiarize themselves with site-specific emergency procedures and contacts before beginning work at any district facility, and failure to report emergencies promptly may result in corrective action.

Proposer Agreement: Mountain View Whisman School District will have an Independent Contractor for Professional Services Agreement (PSA) with the selected contractor which will serve as the awarded contract. The contract includes all terms and conditions as described in this RFP, submission responses from the Selected Contractor and any other negotiated terms and conditions agreed to by both parties and will represent the complete contractual requirements for both the MOT and Selected Contractor.

Contract Maintenance: The District will monitor the awarded contract for contractor compliance and will communicate with the Selected Contractor as needed to discuss service availability, scheduling and response times, equipment performance and maintenance, invoicing issues, special service requests, or any other relevant matters related to Plumbing services.

Contract Modification: The District reserves the right to renew or modify the awarded contract by mutual agreement between the District and Selected Contractor, so long as such modification would not result in a service change to the solicitation and awarded contract. Such modifications will be evidenced by issuance of a written authorized amendment by the District.

It is the Proposer's responsibility to use a complete set of RFP documents in the preparation and submission of its proposal. Additionally, the Contractor must have the capability to respond immediately to situations impacting the health and safety of employees, students, or the public, as well as any plumbing issues affecting the comfort and operational functionality of public meeting spaces. Routine plumbing repairs, service requests, or other non-urgent tasks must be completed by journey-level plumbing staff within five (5) working days from the date of request by the District Representative. Failure to respond to emergencies in a timely manner may result in a penalty fee of \$100 per occurrence.

Trouble Calls and Repair Services: Should the District request the Contractor to address issues with plumbing systems or equipment, the District shall be responsible for the associated labor and travel costs. These costs, as outlined in the proposal, will be a key factor in the bid evaluation process. All rates shall remain firm for the duration of the contract. The District reserves the right to utilize other vendors or contractors for plumbing trouble calls and repairs as needed.

Staffing, Workmanship and Quality Level: The Contractor shall provide a staffing level that ensures the desired level of customer service, program support, and plumbing maintenance and repair services at designated District facilities. All work shall be performed by journey-level plumbing staff who are directly employed and supervised by the Contractor. The Contractor shall provide competent management and technical supervision as required. The Contractor is responsible for the skills, methods, and actions of all employees and subcontractors, as well as the quality of all work performed. The Contractor must also have the capability to diagnose and

repair complex plumbing systems and infrastructure, including but not limited to domestic water systems, sanitary sewer lines, storm drains, gas piping, backflow prevention devices, and associated control systems.

Equipment and Materials:

The Contractor shall furnish and maintain all equipment necessary for properly servicing and maintaining plumbing systems in Mountain View Whisman School District (MVWSD) buildings. The District reserves the right to inspect equipment used to perform services under this contract. Any equipment determined to be in poor condition must be replaced immediately at the Contractor's expense. Failure to provide suitable equipment to fulfill all requirements of this contract may be grounds for termination.

The Contractor shall furnish all parts and materials necessary for properly maintaining and repairing plumbing systems in MVWSD buildings. Mark-up on parts and materials may not exceed 15% of the Contractor's cost. Invoices must clearly identify the work performed, cost of labor, parts/materials used, parts/materials cost, and parts/materials mark-up cost.

All services must be performed in compliance with MVWSD policies, safety regulations, and industry standards.
